

We have a new sock, that is not necessarily Civil War, but goes farther in time. It is our CUSHION SOLE AND LEG SOCK. Marching bands like this as it keeps the legs comfortable and is extra cushion under the foot. I think on a cool day it would be good for any one that is outside .

We have it in natural but can get your color (Min 12 pr.) STK-91-5, Price \$20.00 48 inches

Do you have to remember to shake out your boots before putting them on the morning, to get any overnight creepy crawly things that might have gotten into your boots? NOW there is the SPIDER OUT. It is a short knit cover that slips into the top of your boot and the edge folds over the top edge of the boot to form a barrier that keeps them out. As you can see below a bug just can't get in. It is small and light, fits in your kit easily, made of all Acrylic and almost stain resistant. Just \$4.99 a pair, in Brown or blue. The Bug is not included.

You are looking at a boot laying down, toe is off to the top right. The SPIDER OUT slips about 5 inches inside the boot and the top of the SPIDER OUT folds down on the out side of the top. Boot

MEDIUM WEIGHT WOOL

MEDIUM WEIGHT WOOL

As you can see it is hard to see the difference, between the two wool weighs, but you can tell by the feel. Wool keeps you warm without locking in extra moisture, being a natural fiber.

Of course all our socks have the stay put power. Style STK 91 4
