We updated our Boilers to a heavier grade of Stainless. It will take more hard use now. Also, made the bottom rimless, so it is not likely to leak.

These are good size ,
24OZ, 5"high.

Good for coffee or making a single serving of stew.

Fugawee's Metal Ware S.S.

Looks like Tin, but it is Stainless Steel, satin finish; How many times have you come back to camp and forgotten to clean your tin ware? It is gross in the Morning. Not with these look-a-likes.

Just try one for yourself and see. There is nothing better to sell a product than your personal use and experience.

**TWO SIZES OF bottom
SPOUT**

**THE SMALL BOTTOM SPOUT, to
the left, is great for a several
cups of coffee for/with breakfast.

FUGAWEE'S METAL WARE

**Above, one new out of the box Fuga-
wee Boiler. Below is my used boiler.**

**Noncorrosive satin finish STAINLESS
24 Oz. Boiler.**

**No more worries about a forgotten
clean up. It will still clean out in
the morning. After a few uses it
will look like the tin one you had
throw away because had corrosion,
not this one. It will serve you for
years.**
